

## Upload images in ibm container registry

The screenshot shows the IBM Cloud Object Storage console. The left sidebar contains navigation links: IBM Cloud, Cloud Object Storage, Storage instances, Cloud Object Storage-xi, Buckets (selected), Integrations, Endpoints, Usage details, Service credentials, Connections, and Plan. The main content area displays a table of uploaded objects. Above the table, there is a search bar with the text 'Prefix filter' and an 'Upload' button. Below the table, there is a message: 'Drag and drop files (objects) here or click to upload' with a corresponding button. The table has columns for 'Object name', 'Archived', 'Size', and 'Last modified'. The objects listed are all named 'im...jpg' except for one named 'st...CSS', all with a size of 5.2 KB to 6.7 KB and a last modified date of 2022-11-01 7:18 PM. The bottom of the screen shows a Windows taskbar with the search bar, taskbar icons, and system tray information including temperature (24°C), time (06:59 PM), and date (14-11-2022).

If you're seeing more usage than expected, versions count towards your usage or you may have incomplete uploads [Learn more](#)

Prefix filter Upload
